Google Analytics Remarketing

Our websites leverage the features of Google Analytics Remarketing with the cross-device capabilities of Google AdWords and DoubleClick. Provider is Google Inc.

This feature allows the Google Analytics remarketing ad groups to be linked to the cross-device features of Google AdWords and Google DoubleClick. In this way, interest-based, personalized advertising messages that were adapted to you depending on your previous usage and surfing behavior on one device (eg mobile phone) can also be displayed on another of your devices (eg tablet or PC).

Once you have given your consent, Google will associate your web and app browsing history with your Google Account for this purpose. That way, the same personalized advertising messages can appear on any device you sign in to with your Google Account.

To support this feature, Google Analytics collects Google-authenticated IDs of users who are temporarily linked to our Google Analytics data to define and create audiences for cross-device ad promotion.

You can permanently opt out of cross-device remarketing / targeting by opting out of personalized ads in your Google Account; follow this link: <https://www.google.com/settings/ads/onweb/>.

The aggregation of the collected data in your Google Account is based solely on your consent.
